Vitamins/Minerals

Provided when medically indicated and related to primary diagnosis.

** = second line medication
bold = available in liquid form
italics = available in suppository form

COST – 7-DAY SUPPLY +/-

¢ = <\$1 \$ = \$25 – \$75
¢¢ = \$1 – \$5 \$\$ = \$75 – \$150
¢¢¢ = \$5 – \$10 \$\$\$ = \$150 – \$500
¢¢¢¢ = \$10 – \$25 \$\$\$\$ = >\$500

Formulary Guidelines

The formulary was developed by Chapters Health Pharmacy. Medications are listed by the generic and brand name.

First-line medications are **available for delivery** and include those that are found in the protocols and medications that are commonly used in hospice and palliative medicine.

Second-line medications are provided when first-line medications have been used and failed or other factors prevent the use of **first-line** medications. The second-line medications are not anticipated to be as commonly used as first-line medications and are identified with **two asterisks(**)**.

Restricted medications are non-formulary and require prior authorization from the medical director.

In the event that a patient requires a medication not listed on the formulary, consultation between the ordering clinician and a pharmacist will occur. The pharmacist may suggest formulary alternatives. If the prescriber chooses to use a non-formulary medication, a drug exception form must be completed before the medication is provided to the patient.

MEDICATION COVERAGE FOR SPECIFIC DIAGNOSIS

Debility Unspecified –most medications are covered.

Abnormal loss of weight – most medications are covered.

Failure to Thrive – most medications are covered.

MONITORED DRUGS

Procrit/Epogen/Aranesp

MEDICATIONS REQUIRING CONSULTATION WITH PHARMACIST PRIOR TO APPROVAL

Flolan	Thalomid
Revatio	Lyrica
Tracleer	Antiretrovirals
Remodulin	Ranexa
Revlimid	

NON-FORMULARY (RESTRICTED) MEDICATIONS REQUIRING MEDICAL DIRECTOR APPROVAL

Avelox
Hydromorphone IV
Lidoderm
Marinol
Oxycodone (liquid)
Oxycontin
Prevacid
Spiriva
Transderm Scop
Xopenex
Xifaxan
Santyl

RESOLUTION OF MEDICATION PROVISION

Issues regarding whether a medication is palliative and/or related to the primary life-limiting illness may be discussed by the Chapters Health pharmacist and the appropriate clinical or medical staff member.

If a consensus if not reached, the staff member will discuss with the pharmacy director or designee.

If consensus is still not reached, the medical director or designee will be consulted.

OTHER

Enterals/food supplements -
Provided when medically indicated via a feeding tube and related to the hospice diagnosis.

TPN - Provided when patient does not have a functioning GI tract or enteral feedings are not appropriate in patients with functioning GI tract.

Lovenox/ Arixtra - Provided only for patients with DVT related to hospice diagnosis; not provided for prophylaxis.

Rilutek, Exelon and Razadyne are not provided.

MEDICATION PROTOCOLS

Ipratropium use in Cardiac Patients
Levaquin UTI
Treatment of Respiratory Infections using Oral Antibiotics
Xopenex
Procrit/Aranesp
Oxycontin
Transderm Fentanyl
Megace
Antipsychotics
Xifaxan
Ketamine

NOTE: The protocols can be found in Policy Tech or at <https://policy.chaptershealth.org>

SCHEDULE III – V CONTROLLED SUBSTANCE MEDICATION REQUIRING AN ORDER FROM A PHYSICIAN WITH A VALID DEA NUMBER

Ambien (Zolpidem)	Fioricet (Butalbital/APAP/caffeine)
Ativan (Lorazepam)	Ketamine
Klonopin (Clonazepam)	Librium (Chlordiazepoxide)
Lomotil (Diphenoxylate/ Atropine)	Lyrica* (Pregabalin)
Phenobarbital	Marinol* (Dronabinol)
Restoril (Temazepam)	Soma* (Carisoprodol)
Robitussin AC (Guaifenesin/Codeine)	Ultracet (Tramadol/APAP)
Tylenol #3 (Tylenol w/Codeine)	Ultram (Tramadol)
Valium (Diazepam)	
Versed (Midazolam)	
Xanax (Alprazolam)	

***Non-formulary**
